

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-73. (Cancelled)

74. (Previously Presented) Zinc sulfide electroluminophores which have a cubic crystal structure and average grain sizes of from 2 to 5 microns;

Wherein the particles comprise zinc sulfide, activator compounds, and coactivator compounds, wherein the particles are coated with a protective layer consisting of an inner metal oxide film and an outer silicon nitrate film.

75. (Previously Presented) Zinc sulfide electroluminophores comprising zinc sulfide and activator compounds and coactivator compounds, wherein said electroluminophores have an average grain size of from 5 to 7 microns and a cubic crystal structure, and wherein particles of said zinc sulfide electroluminophores are coated with a protective layer consisting of an inner metal oxide film and an outer silicon nitrate film.

76. (Previously Presented) Zinc sulfide electroluminophores comprising zinc sulfide, wherein said electroluminophores have an average grain size of from 5 to 7

Appln. No. 09/869,956
Amd. dated December 12, 2005
Reply to Office Action of June 14, 2005

microns, and wherein particles of said zinc sulfide
electroluminophores are coated with a protective layer
consisting of an inner metal oxide film and an outer silicon
nitrate film.
